

Let's yarn about your health

Our Care Coordinator is someone who can help you understand the health system, and how to best look after and manage your health.

Our Care Coordinator can assist you with:

- Coordinating your appointments (doctor, allied health and exercise)
- Help you to book in to see your GP and other specialist doctors that may be relevant to your health
- Organising travel for your health (for example, if you need to travel somewhere to receive healthcare)
- Keeping you updated with your health through regular assessments

If you would like to yarn with the care coordinator, we'd love to meet you!

Karratha Central Healthcare acknowledges the Ngarluma People as the traditional custodians of the lands that we operate on within the City of Karratha. We respect the cultural connection that Ngarluma families have to these ancient lands.
